---	-----

OTHER KARTS & ENGINES

All karts meeting sound and safety requirements welcome. However, only karts meeting the technical requirements of the above official championship classes will get event trophies and points. Nonconforming karts will race with an age and performance appropriate group, but may not be scored. If five or more karts of a non-championship class attend a race they will be scored as that class and eligible for event trophies. If this occurs at five events, that class will be eligible for year-end awards and made an official class the following season.

FUEL & OIL

Racing fuel or pump gas of any octane, except World Formula and Briggs 206 must run 93 octane. TaG and 2-cycle classes must follow manufacturer specified oils and quantities. No oils added to 4-cycle gas. No fuel additives in any class! There will be random checks.

TIRES

Dry Tires: Bridgestone YLB, Hoosier R60A, MG Yellow & Red, Vega White & Green

Rain Tires: Open

MG Red Spec Tire Classes: Micro Max, TaG Mini, All Briggs 206, World Formula Light/Heavy

NOTE: Race Director may make exceptions and amendments to rules at anytime in best interest of the club, safety and competition.
